SERVICES

CONCUSSIONS, HEAD INJURIES DEMENTIA and MAJOR COGNITIVE DISORDERS

Concussions are increasing in sports from youth to professional athletes. Multiple concussions or chronic head injuries are resulting in terminal encephalitis and even death. We are here to help, call to learn more and schedule an appointment:

Baseline QEEG and Neuropsychological assessment

Neurofeedback and concussion management

For students, adults and teams

We can address your concerns and help to improve physical, emotional and cognitive symptoms resulting from concussions or head injury.

Under the direction of Dr. Michael Linden, Ph.D:

Author-Concussion Article Biofeedback Magazine; Editor-Biofeedback and Neurofeedback Applications in Sport Psychology; Speaker at Summer Olympics. Experienced with professional and Olympic athletes and teams
